IOLA VS. SARATOGA. Editor Register :

In reference to the question of changng the name of our city from Iola to Saratoga, there are a few points to which I desire to call the earnest attention of our citizens before they commit themselves to so great a blunder. That a large majority of the citizens of Iola e-e opposed to a change I am firmly convinced, notwithstanding the fact that the meeting on Wednesday showed a large majority in favor of it. That meeting was composed of those favoring the movement, and the ones that were opposed to it were, with a few exceptions ignorant of it. If it had not been so intended, the public would have been notified through the columns of THE REGISTER.

Now what is the object of this change? and what are the arguments used in its favor? All that the opponents of the scheme could call out, except a small amount of ridicule, was that it was to dvertise the mineral water. Is that all! One might almost suppose that it was a scheme to draw off attention from their tailure in the court of Judge Bell on the liquor question. But we will for the sake of argument, give them credit for being sincere, and consider what the effect will be of a change from Iols to Saratoga.

It must be remembered that that well ship; from 1 p. m. to 230, History; 2:45 belongs to private parties, and the publie can get no interest in it by a change of the name of our city. As private property we have nothing to That the present owners are either una Questions in most of the branches will ble or unwilling to erect suitable build be written on the blackboard where they lings for the entertainment and cure of can be seen by all, and we hope many the sick, is shown by the past.
